# CXC to CXC HP

## Retrofit Kits

- Controller kits to upgrade existing Alpha power plants from a legacy CXC controller to a CXC HP controller without replacing power plants
- Unique PCB strip allows for quick and easy field conversion of controllers by maintaining the exact location of the various I/O (voltage, current, temperature, digital etc).
- Kit includes components to convert:
  - Vista plants with CXC controllers
  - CXPS D, CXPS M & CXDS M plants with CXC controllers
  - AMPS HP with CXCR controller
- CXC HP controller and associated peripherals (L-ADIO, 6i) provide the capability to upgrade legacy Alpha power systems with the next-generation control and monitoring platform

### **The Cordex® CXC HP system controller provides a high performance control and monitoring option for all Alpha Cordex® products.**

The CXC HP brings a refreshed look, increased horsepower, and advanced configurability to the proven Cordex® CXC controller family.

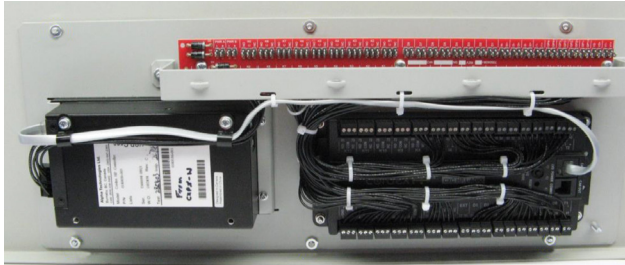

CXC HP includes multiple communication ports including two Ethernet connections to permit simultaneous local craft access as well as permanent LAN/WAN connectivity. Dual USB ports provide advanced file management capabilities including firmware upgrades and system configuration management. A USB key may also be used to quickly backup and restore site configuration settings and data logs.

The CXC HP web based user interface provides detailed inventory management allowing integration of advanced energy systems incorporating multiple power elements. Systems with various energy generation and storage elements can be configured and monitored with ease. Users may also create custom inventory such as shunts, LVD's, battery systems, and loads to effectively manage all aspects of their energy system. Cordex® CXC HP ensures effortless operation and management to satisfy the most demanding and advanced energy system applications.

# CXC to CXC HP Retrofit Kits

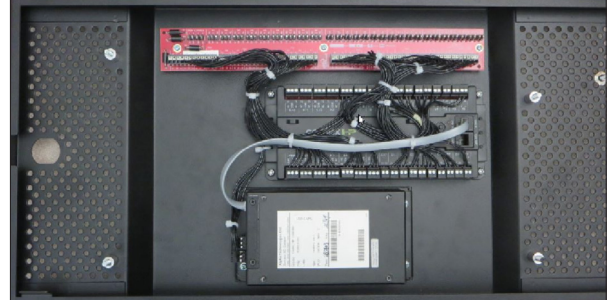

## Vista CXCP to CXC-HP Field Retrofit Kits

<b>0380433-001</b>	Vista, CXCP to CXC HP & 1x L-ADIO field conversion kit (required when upgrading a Vista system with a CXC controller to a CXC HP controller)
<b>0380433-002</b>	Vista, CXCP to CXC HP & 2x L-ADIO field conversion kit (required when upgrading a Vista system with a CXC controller to a CXC HP controller)
<b>0380433-003</b>	Vista, CXCP to 1x L-ADIO field conversion kit (required when adding a CXPS-W power system with a CXC HP controller to an existing Vista system with a CXC controller)

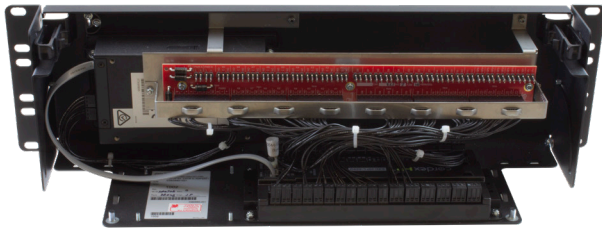

## CXPS-D & CXPS-M CXC to CXC-HP Field retrofit Kits

<b>0380503-001</b>	CXPS D/M, CXC to CXC HP & 1x L-ADIO field conversion kit (required when upgrading a CXPS-D/M system with a CXC controller to a CXC HP controller)
<b>0380503-002</b>	19" CXPS D/M, CXC to CXC HP & 1x L-ADIO field conversion kit (required when upgrading a CXPS-D/M system with a CXC controller to a CXC HP controller)

## CXCR to CXC-HP Field retrofit Kits

<b>0380529-001</b>	CXCR to CXC HP and 1x L-ADIO field conversion kit (required when upgrading an Alpha system with a CXCR controller to a CXC HP controller)
<b>0380880-001</b>	CXCR to CXC HP and 1x L-ADIO field conversion kit (required when upgrading an AMPS80 HP system with a CXCR controller to a CXC HP controller)

## VISTA CXCM4 TO CXC-HP FIELD RETROFIT KITS

<b>0380514-001</b>	Vista (1 Tier), CXCM4 to CXC HP & 1x L-ADIO field conversion kit (required when upgrading a Vista system with a CXCM4 controller to a CXC HP controller)
<b>0380514-002</b>	Vista (2 Tier), CXCM4 to CXC HP & 1x L-ADIO field conversion kit (required when upgrading a Vista system with a CXCM4 controller to a CXC HP controller)
<b>0380514-003</b>	Vista (4 Tier), CXCM4 to CXC HP & 1x L-ADIO field conversion kit (required when upgrading a Vista system with a CXCM4 controller to a CXC HP controller)
